PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building production web applications across the MERN stack and Next.js. Proficient in scalable backend services, secure JWT authentication, and relational (MySQL) and document-based (MongoDB) database architecture. Delivered a 30% page load improvement and multiple end-to-end features in Agile teams. Active IEEE researcher applying transfer learning and LSTM-based forecasting to real-world prediction challenges.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap, SSR

Backend: Node.js, Express.js, REST API Design, JWT-based Auth, Middleware Architecture, WebSockets

Databases: MongoDB, MySQL, Schema Design, Query Optimization

Tools and DevOps: Git, GitHub, Postman, Vercel, Render, VS Code, Webpack, Unit Testing, Agile/Scrum

Data and ML: Pandas, NumPy, Transfer Learning, LSTM Forecasting, NLP, LLM Integration

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Joliffe (P) Ltd.

May 2026 – Present · Noida, India

- Developed the complete frontend and backend for a job board platform, serving 500+ job listings with JWT-secured login and real-time WebSocket notifications for candidates and recruiters.
- Architected RESTful endpoints for listings, candidate profiles, and recruiter workflows; restructured MongoDB collections and MySQL schemas, cutting average query response time by 40%.
- Built an advanced candidate search and filtering feature with multi-parameter queries, resolving 50+ cross-browser rendering bugs and achieving a 30% reduction in page load time.

Analyst Intern, Subscriber Services Group — Priority IDC Ltd.

Jan 2025 – Jun 2025 · Chandigarh, India

- Engineered transaction validation logic across 6+ internal portals, raising data accuracy by 35% and eliminating a recurring reconciliation backlog.
- Introduced client-side state management that slashed manual reconciliation effort by 40%; verified responsive layouts across 5+ device configurations.

Frontend Developer Intern — SUPOF Pvt. Ltd.

Sep 2022 – Mar 2023 · Chandigarh, India

- Designed and delivered 10+ reusable React UI components, reducing duplicate code by 35% and accelerating feature delivery across the codebase.
- Produced mobile-responsive page layouts in HTML5, CSS3, and Bootstrap, achieving consistent rendering across all tested viewports.

PROJECTS

Zyagra — Full Stack E-Commerce Platform *React.js · Node.js · Express.js · MongoDB*

- Engineered a full-stack store with MVC architecture, secure cart/checkout, and product search filtering; optimized asset delivery to achieve sub-2-second page rendering.

NotesAI — AI-Powered Document Analysis Tool *Python · NLP · LLMs · React.js*

- Architected NLP pipelines and LLM-based summarization reducing manual document review time by 60%; added multilingual support across 5 languages.

CryptoLens — Financial Forecasting Model *Python · LSTM · React.js*

- Trained a 2-layer LSTM on Yahoo Finance data to forecast crypto and stock prices, reaching 78% directional accuracy at 3.2% MAPE across 6-month backtests.

ZoomCarz — Car Rental Booking Platform *React.js · Node.js · Express.js*

- Launched a car rental platform with WebSocket-driven live availability updates; reduced average booking steps from 7 to 4 clicks through UX redesign.

RESEARCH AND PUBLICATIONS

Simulating the Indian Chemical Exposome: A Multi-Modal Transfer Learning Framework for Predicting Heavy Metal Bioaccumulation

IEEE — Under Review. Applied transfer learning and domain adaptation to predict heavy-metal bioaccumulation patterns from heterogeneous environmental datasets.

EDUCATION

MCA — CHRIST University

GPA: 3.29/4.0 · Expected May 2027

BCA — Chandigarh University

GPA: 6.97/10 · May 2025

Senior Secondary (XII) — Army Public School

73.64% · July 2022

CERTIFICATIONS

Artificial Intelligence — Intel Unnati, 2026 · HTML, CSS and JavaScript — Coursera, 2024 · Interactive Python — Coursera, 2024 · English (Fluent), Hindi (Native)
