

SANDEEP KUMAR

Full Stack Developer

+91 98363-62924 | sandeepkumar362924@gmail.com | Noida, India | linkedin.com/in/sandeep-kumar14
| github.com/Sandeep2924

Professional Summary

Full Stack Developer with hands-on experience building and shipping production web applications using the MERN stack, Next.js, and RESTful API design. Skilled in scalable backend services, secure JWT authentication, and relational (MySQL) and document-based (MongoDB) database schemas. Proven record improving page load performance by 30% and shipping full stack features end to end in Agile teams. Active IEEE researcher applying transfer learning and machine learning to real-world prediction problems.

Core Competencies

Full Stack Development | MERN Stack | Next.js | RESTful API Design | JWT Authentication | Database Architecture | MongoDB & MySQL | Agile Collaboration | Performance Optimization | Machine Learning Research

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap, SSR

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication, Middleware

Databases: MongoDB, MySQL, Schema Design, Query Optimization

Tools & Practices: Git, GitHub, Postman, Vercel, Render, VS Code, Webpack, Unit Testing, Agile/Scrum

Research & Data Skills: Transfer Learning, LSTM Forecasting, NLP, LLM Integration

Professional Experience

Full Stack Developer Intern — Joliffe (P) Ltd.

May 2026 – Present | Noida, India

- Built the frontend and backend for a job board platform, implementing JWT authentication and real-time WebSocket notifications for candidates and recruiters.
- Architected RESTful API endpoints across job listings, candidate profiles, and recruiter workflows; redesigned MongoDB and MySQL schemas and tuned slow-running queries to improve responsiveness.
- Implemented advanced search filtering and resolved 50+ cross-browser display bugs, improving page load time by 30%.

Analyst Intern, Subscriber Services Group — Priority IDC Ltd.

Jan 2025 – Jun 2025 | Chandigarh, India

- Implemented transaction validation logic across 6+ internal portals, improving data accuracy by 35%.
- Introduced client-side state management that reduced reconciliation effort by 40%, and validated responsive layouts across 5+ device configurations.

Frontend Developer Intern — SUPOF Pvt. Ltd.

Sep 2022 – Mar 2023 | Chandigarh, India

- Built 10+ reusable React UI components, reducing duplicate code by 35% across the codebase.
- Delivered mobile-responsive page layouts using HTML5, CSS3, and Bootstrap.

Projects

Zyagra — Full Stack E-Commerce Platform (React.js, Node.js, Express.js, MongoDB)

- Engineered a full-stack e-commerce platform with MVC architecture, secure login, and product search/filtering, achieving sub-2-second page rendering speeds.

NotesAI — AI-Powered Document Analysis Tool (Python, NLP, LLMs, React.js)

- Designed an AI document analysis tool with NLP pipelines and LLM-based summarization, cutting manual review time by 60% and supporting multilingual output.

CryptoLens — Financial Forecasting Model (Python, LSTM, React.js)

- Trained a 2-layer LSTM model on Yahoo Finance data to forecast crypto/stock prices, achieving 78% directional accuracy at 3.2% MAPE.

ZoomCarz — Car Rental Booking Platform (React.js, Node.js, Express.js)

- Launched a car rental booking platform with WebSocket-based live availability updates and a fully responsive UI.

Research & Publications

Simulating the Indian Chemical Exposome: A Multi-Modal Transfer Learning Framework for Predicting Heavy Metal Bioaccumulation — *IEEE, Under Review*. Applied transfer learning and domain adaptation to predict heavy-metal bioaccumulation from heterogeneous environmental datasets.

Education

Master of Computer Applications (MCA) — CHRIST University GPA: 3.29/4.0

Expected May 2027

Bachelor of Computer Applications (BCA) — Chandigarh University GPA: 6.97/10

May 2025

Senior Secondary (XII) — Army Public School 73.64%

July 2022

Certifications & Languages

Privacy & Security in Social Media — NPTEL, 2023 | HTML, CSS & JavaScript — Coursera, 2024 | Interactive Python — Coursera, 2024

Languages: English (Fluent), Hindi (Native)
