SUMMARY

MCA student at Christ University with experience in AI/ML systems and web development. Skilled in Python, React, JavaScript, and machine learning techniques for building intelligent applications. Experience developing AI-driven tools, forecasting models, and scalable web interfaces through internships and projects. Passionate about applying data-driven solutions and modern technologies to real-world problems.

TECHNICAL SKILLS

Programming Languages: Next.js, Node.js, HTML5, CSS3 Python, JavaScript (ES6+), TypeScript
Frameworks and Tools: MySQL, Git, GitHub, REST APIs, Document Processing

EDUCATION

CHRIST (Deemed to be University), Delhi NCR
Master of Computer Applications (MCA); GPA: 3.29/4

Ghaziabad, Uttar Pradesh, India
May 2027

Chandigarh University, Mohali
Master of Computer Applications (MCA); GPA: 6.97/10

Mohali, Uttar Pradesh, India
May 2025

Army Public School, Ambala Cantt
Senior Secondary (XII); Percentage 73.64%

Ambala Cantt., India
July 2022

EXPERIENCE

Analyst Intern – Subscriber Services Group, Priority IDC Private Limited, Chandigarh Jan 2025-Jun 2025

- **Transaction validation logic and client-side checks** to detect failed or invalid transactions.
- **State management and transaction status tracking** for financial operations.
- **Secure credential handling and client-specific login validations.**
- **Responsive UI testing and optimization** for multiple client requirements.

Intern trainee, SUPOF Pvt. Ltd., Chandigarh

Sep 2022 - Mar 2023

- **Small UI components and page layouts** using HTML, CSS, Bootstrap, and JavaScript.
- **React-based interfaces with reusable components and page structures.**
- **Responsive design fixes** for mobile, tablet, and desktop compatibility.
- **Frontend testing and UI layout updates** to improve page structure and usability.

RESEARCH (IEEE – Under Review)

Simulating the Indian Chemical Exposome: A Multimodal Transfer Learning Framework for Predicting Heavy Metal Bioaccumulation
(Submitted to IEEE – Under Review)

PROJECTS

BhashaBot – AI Document Study Assistant

- **AI-powered document assistant** for analysing PDFs, PPTs, and text files.
- **NLP pipelines and LLM integration** for automated document understanding and summarization.
- **Multilingual explanations** to simplify complex study material for students.
- **Tech:** Python, NLP, LLMs, Document Processing.

AI-Powered Crypto Forecasting

- Live OHLCV financial data retrieval from Yahoo Finance for stocks and cryptocurrencies.
- 2-layer LSTM deep learning model for price trend prediction.
- Autoregressive time-series forecasting for multi-day price predictions.
- Interactive data visualization for historical prices, predictions, forecasts, and training loss..

CERTIFICATIONS

- **NPTEL Certification – Privacy & Security in Online social media**
Jul–Oct 2023 | 12-Week Course | NPTEL (Govt. of India)
- **HTML, CSS & JavaScript for Web Developers**
Johns Hopkins University (Coursera) | Oct 2024
- **An Introduction to Interactive Programming in Python**
Rice University (Coursera) | Sep 2024
